

Retail Stock Mobile Storage

Kara Mobile Shelving System are shelving fixed on a mobile chassis that slide along mobile rails mounted on the floor. Either manually or electrically operated, both systems are cost effective as it maximizes the use of floor space by having one access aisle. To open an access aisle at a desired location by moving the carriage mounted shelving saving the space by 40% and increasing the capacity of storage by 80% in the same location.

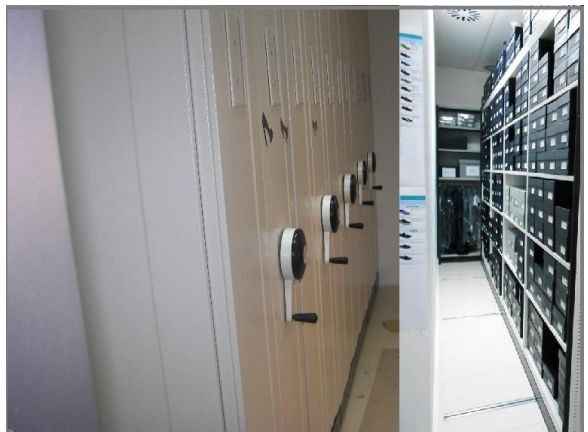

The system is designed for storing shop items like clothes, bags, shoes and even small items. Each item is stored systematically thru different adjustable accessories like shelf, hanging rod and drawers. Accessibility of items is easy as the passage between two movable shelving is easy to open.
